

## Payworks joins CDK Global's Partner Program

Canadian Dealers gain access to a proprietary interface with Payworks, integrating workforce management solutions to CDK Drive, IntelliDealer and Lightspeed Dealer Management Systems.

**Winnipeg, MB November 08, 2016** – CDK Global's Partner Program provides dealers with choice in an ecosystem of approved applications that can be added quickly and easily be integrated into their data management system (DMS). Payworks has recently joined the Partner Program and can provide dealers with a unique integration to three CDK DMS platforms: Drive, Lightspeed and IntelliDealer. By importing payroll data directly to a dealer's system, Payworks' integration to CDK in Canada will improve reporting accuracy and eliminate errors in account setup.

"The CDK Partner Program gives dealers access to applications that enhance and improve the performance of their dealership," said Howard Gardner, vice president at CDK Global. "The program gives dealers the ability to operate in a more secure ecosystem that helps protect their data integrity."

Payworks is the only payroll company in Canada to integrate with CDK, and unlike competitors, will help eliminate the need for manual data entries. With a 3PA certification, Payworks' integration benefits from enterprise-class infrastructure and support so the solutions remain up and running to perform critical business processes such as payroll.

"Our 3PA certification to CDK provides Payworks clients with a secure data integration between the CDK DMS and our advanced workforce management solutions," says JP Perron, President of Payworks. "Canadian dealers tell us the onboarding is simple and the interface provides tremendous time and efficiency savings."

The CDK Partner Program is the only approved method for accessing and integrating with the CDK DMS. The program provides dealers with an enterprise-class infrastructure and support services.
