

# Payworks Pays it Forward as Gold Sponsor of Canadian Payroll Association Conference and Trade Show

April 18, 2016 – On June 15-18, 2016, Payworks will participate as a Gold Sponsor at the premier payroll event in Canada, the Canadian Payroll Association's 34<sup>th</sup> Annual Conference and Trade Show: Paying it Forward. This year's events take place at the Telus Convention Centre in Calgary, Alberta, and approximately 800 payroll specialists from across the country are expected to attend.

This payroll event provides an opportunity for payroll practitioners to connect with top thought leaders in payroll compliance, employment standards, and management. The Conference program offers experienced speakers, engaging and interactive sessions, and peer-to-peer networking opportunities.

Payworks participates as an exhibitor at the June 16 trade show, and sponsors the trade show snack break. The snack break will provide delegates with a taste of Calgary's snack offerings. If you are headed to the conference and trade show on June 16, please stop by the Payworks booth to say hello, and to collect your ticket to the snack break.

For the first time, Payworks is also participating in the Conference Education Sessions as a presenter. The Information Security & Governance in the Age of Cyber Threats education session on June 18 will be presented by Belinda Carfrae, Director, Treasury & Governance at Payworks, and Kevin Sokolowski, Vice President, Information Technology at Payworks. Our industry professionals will share information security tips and best practices for internal governance in any type of business. Whether your company pays one employee or 10,000 and uses payroll software in-house or outsources to a payroll service provider, after this session you will return to your workplace armed with practical knowledge that you can share with your colleagues and leadership team to help your organization implement best practices. Topics covered include payroll governance (i.e. segregation of duties, most common payroll fraud, audit and compliance, etc.) and information security (password security, common malware, alerts and warnings, etc.).

Follow Payworks on all of our social media channels to stay in the loop as we announce more event details. Visit [payroll.ca](http://payroll.ca) for more information or to register for the Conference events.
